

Experience

Software Engineer

Springworks

Nov 2021 – Present

Remote, India

- Joined Springworks as a Software Engineer, working remotely and contributing to the development of a comprehensive business management tool specifically tailored for the landscaping industry.
- Played a crucial role in adding new complex features to the project, showcasing a deep understanding of the business requirements and effectively translating them into functional frontend implementations.
- Actively participated in the improvement of the development process by introducing and implementing tools such as Storybook, which enhanced component-driven development and streamlined the UI/UX workflow.
- Assisted in the migration of React versions, ensuring a smooth transition and keeping the application up-to-date with the latest technologies and performance optimizations.
- Mentored and supported interns, fostering their growth and providing guidance in frontend development practices and project-specific tasks.
- Contributed to the implementation and maintenance of unit and integration tests, ensuring code quality and minimizing potential bugs and regressions.

Frontend Engineer

Techwarelab

Oct 2019 – Nov 2021

Kochi, Kerala

- Joined Techwarelab as a Frontend Developer, contributing to the development of various projects.
- Independently built multiple projects from scratch, leveraging technologies such as ReactJS, Angular, and Ionic.
- Architected and designed several projects, demonstrating a strong understanding of frontend development principles and best practices.
- Improved existing projects by implementing enhancements and optimizations, resulting in increased performance and user satisfaction.
- Maintained a proactive approach to staying updated with the latest trends and advancements in frontend technologies, incorporating relevant tools and techniques into projects.
